SECOND ERRATUM

Released: October 6, 2004

By the Chief, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau:

On August 6, 2004, the Commission released a *Report and Order, Fifth Report and Order, Fourth Memorandum Opinion and Order, and Order*, FCC 04-168, in the above-captioned proceeding.¹ This Erratum corrects the following errors or omissions in that document:

1. Paragraphs 87, 344 and 345, contained inconsistent language concerning the timing of the acknowledgement Nextel must file prior to commencing operations on the 1.9 GHz band. Accordingly, we correct the inconsistency by revising: (a) the second sentence of paragraph 87 to read as follows:

Specifically, as a condition precedent to commencing operations on the 1.9 GHz band pursuant

¹ See *Improving Public Safety Communications in the 800 MHz Band, Report and Order, Fifth Report and Order, Fourth Memorandum Opinion and Order, and Order*, WT Docket 02-55 (FCC 04-168), rel. Aug. 6, 2004.

to any of its licenses modified pursuant to this *Report and Order*, Nextel shall file with the Commission, **within sixty days of publication of the *Report and Order* in the Federal Register**, an acknowledgement acceptable to the Commission.

And (b), by striking paragraph 345 and adding a final bullet to paragraph 344:

- Nextel shall file with the Commission an acknowledgement that meets the requirements of paragraph 87 *supra*.

2. We correct inconsistent language in paragraphs 332 and 356, regarding when Nextel must secure the funding for reconfiguring the border areas by revising: (a) paragraph 332 to read as follows:

In the event that reconfiguration of the 800 MHz border areas is not completed at the end of the thirty-six month reconfiguration process due to circumstances outside of Nextel's control, the Transition Administrator shall estimate how much completing the reconfiguration will cost. Within thirty days of the completion of this estimate Nextel shall elect to either extend the life of the letter(s) of credit or secure a separate letter of credit to cover the costs of border area reconfiguration. In order to prevent a lapse in financial coverage, if Nextel elects to secure a separate letter of credit the prior letter of credit must remain in effect until the effective date of the new letter of credit. The estimated cost of reconfiguring the 800 MHz band in the border areas shall be included as a credit in the computations described in paragraph 330 *supra*.

And (b), paragraph 356 to read as follows:

"IT IS FURTHER ORDERED that, as a condition of its 800 MHz and 1.9 GHz modified licenses, Nextel shall, within thirty days of the completion of the Transition Administrator's estimate of the cost of completing band reconfiguration as described in paragraph 332 *supra*, elect to extend the life of the letter of credit or elect to secure a separate letter of credit, in an amount sufficient to ensure the reconfiguration of the 800 MHz licensees operating in the border area, as detailed herein."

3. In the last sentence in Paragraph 303, we correct a typographical error by changing the frequency band from "1990-2035 MHz" to "1990-2025 MHz."

4. In the second sentence in Paragraph 237, we correct a typographical error by changing the frequency band from "1915-1920 MHz" to "1910-1915 MHz."

5. Appendix C, Section 2.106 is amended as follows and all following amendatory instructions are renumbered respectively.

PART 2 – FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. The authority citation for part 2 continues to read as follows:
